

PROMOTECH[®]

Portable Punching Machines

The Promotech portable punching machines are ideal for the punching of I beams that are too large and heavy to be processed with fixed steelworkers and punching machines. There are also considerable time savings and consumable cost savings compared to traditional magnetic drilling machines as well as the advantage of being able to punch square and slot holes.

							
	max. thickness	max. throat depth	max. hole	max. oblong hole	punching time	punching power	double action hydraulic movement

PRO-60 HP	13 mm	60 mm	27 mm	25 x 18 mm	5 sec	35 ton	YES
PRO-110 HP	16 mm	110 mm	27 mm	25 x 18 mm	8 sec	47 ton	YES

Machine Features

- Fast clean punching of holes
- Almost noiseless operation
- Double action fully automated punching and return
- Intelligent control system with inching capability and automatic load detection
- Adjustable depth stop
- 5M hydraulic hose
- Wide range of punches and dies available in round, square and slot

Optional Equipment

- Bench top stand
- Foot pedal control
- Hoist set with adjustable height and balancer
- Beam slide with adjustable depth

Portable Hydraulic Power Pack with Shelf

(Optional) Bench Top Stand

(Optional) Hoist and Trolley

(Optional) Foot Pedal Control

(Optional) Wheel Puncher Slide
