

Bauer have been designing and manufacturing bandsaws in Germany since the 1930's, with thousands of machines having been installed worldwide. Their products have firmly established a reputation for long life and reliability, with many machines still in use in the UK today after many years of service. The latest vertical models, still completely manufactured in Germany, are available in three different throat capacities and can be specified to include a wide range of optional items.

450V

Machine Features

- Superb German quality
- Accommodates a range of blade widths
