Making Metal Work

**COOLANTS & LUBRICANTS
SELECTION GUIDE**

Cutting Fluids and Oils

SuperCut Blue HD Cutting Fluid

A modern biostable semi-synthetic metalworking fluid suitable for all general machining operations on ferrous materials and high carbon steels. Supercut Blue is widely used in sawing operations. Mix 1/8.

Stock Code	Size
10200	5ltr
10201	25ltr

BC Biocure - Waterbed Biocide

This high performance Biocure is for use in any aqueous solutions and emulsions, such as waterbed Plasmas, and coolant sumps for saws and drills. Extremely potent, it just needs to be added at a concentration of 0.1% to keep bacteria at bay.

Stock Code	Size
19817	5ltr

Mecut Wax High Performance Cooling Lubricant Stick

Premium wax lubricant stick for working under difficult circumstances. The wax sticks to the tool preventing dripping or splashing. For all machining and cutting applications on all materials.

Stock Code	Size
10196	500ml

Cutting Fluids and Oils

Spraymist Coolant

Oil used on spraymist coolant systems on saws etc. A highly treated neat cutting oil with low viscosity extreme pressure treatment assists good tool life and a cleaner working environment.

Stock Code	Size
10206-5	5ltr
10206-25	25ltr

SC System Cleaner

GoldCut™ SC is a professional system cleaner which can be used to flush out your current contaminated coolant sump mixture ready for new coolant.

Stock Code	Size
10262	5ltr

Universal Cutting Paste

Premium paste ideal for working under difficult circumstances. The Paste sticks to the tool preventing dripping or splashing. For all machining applications on standard and difficult materials.

Stock Code	Size
10194	125g
10195	750g
